Nov 2016 – Mar 2017

Shea Business Solutions LTD – Asia Pacific

Manila, Philippines

Given charge of network troubleshooting alongside network maintenance and C# development for clients.

- Implemented an Excel to XML converter for a client application.
- Improved office network efficiency for a small office (16 clients) by 50% through removal of unneeded network equipment and faulty CAT5 wiring.

Project

Fluffr: Find Your Furever Friend

- This app will assist users in finding their perfect rescue pet, in a similar style to the popular dating app Tinder.
- Role: DB Admin and Back-End Integration
- Tech Used: Apollo Server, GraphQL, MongoDB, Mongoose, React, Heroku, Git
- URL: <https://fluffr.herokuapp.com/>

Joint Effort

- Developed an application that assists users in choosing a cannabis dispensary and a food truck near one another so that they can pick up both in a fast and efficient manner.
- Role: Backend Engineer
- Tech Used: ExpressJS, jQuery, Sequelize, Heroku, Yelp API, Google Maps API
- URL: <https://joint-effort-kohmm.herokuapp.com>

Discord Event Builder and Others

- Developed a web application to streamline event creation within the Discord platform. Integrated user-friendly features that utilized native functions that the target user base cannot easily utilize; which has led to a 300% increase in users hosting Discord events in a community server.
- Role: Sole Developer
- Tech Used: HTML, CSS, JavaScript, Bootstrap, jQuery, DaysJS, TippyJS, PopperJS
- URL: <https://cosdaman.github.io/DiscordEventBuilder/>

Technical Skills

- HTML
- CSS
- Javascript
- Bootstrap

- Node
- React
- Express
