Summary

Multidisciplinary Full Stack Web Developer looking to create innovative solutions engineering. Known as a leader, team player, shot-caller, and passionate problem-solver within a team. Excited to engineer creative solutions to modern day problems. Fluent in both English and Filipino.

Education

Certificate, Full Stack Web Development   *Currently Undertaking*
    University of Washington   2021 - 2022   Seattle, WA
Diploma, Business IT Management
    British Columbia Institute of Technology   2017 - 2019   Vancouver, Canada
Bachelor of Science, Computer Engineering
    De La Salle University Manila   2011 - 2017   Manila, Philippines

Work Experience

Fulfillment Associate   **2019 – 2021**
Amazon.com - YVR3   **Vancouver, BC, Canada**
Responsible for various sub-departments in outbound logistics; certified powered industrial truck operator.
- Given leadership responsibility for a team of five after three months of starting date due to outstanding performance in personal responsibilities.
- Implemented department-wide process that accelerated processing of mech-lift items 25% and helped management solve logistical and technical problems regarding said process.

C# Software Developer and Hardware Technician Intern   **2016 – 2017**
Shea Business Solutions LTD – Asia Pacific   **Manila, Philippines**
Given charge of network troubleshooting alongside network maintenance and C# development for clients.
- Developed an Excel to XML converter for a client application.
- Improved office network efficiency for a small office (16 clients) by 50% through removal of unneeded network equipment and faulty CAT5 wiring.

Projects

Joint Effort
- Developed an application that assists users in choosing a cannabis dispensary and a food truck near one another so that they can pick up both in a fast and efficient manner.
- Role: Backend Engineer
- Tech Used: ExpressJS, jQuery, Sequelize, Heroku, Yelp API, Google Maps API
- URL: https://joint-effort-kohmm.herokuapp.com/

Impulse Flights
- Developed an application that utilizes both Weather and Flight APIs to show weather and available flights between two destinations in the US.
- Role: API Integration and Support
- URL: https://williamskj.github.io/Project-01/
- Tech Used: HTML, CSS, JavaScript, Bootstrap, jQuery, DaysJS, OpenWeatherAPI, Skyscanner API

Discord Event Builder and Others
- Developed a web application to streamline event creation within the Discord platform. Integrated user-friendly features that utilized native functions that the target user base cannot easily utilize; which has led to a 300% increase in users hosting Discord events in a community server.
- Role: Sole Developer
- Tech Used: HTML, CSS, JavaScript, Bootstrap, jQuery, DaysJS, TippyJS, PopperJS
- URL: https://cosdaman.github.io/DiscordEventBuilder/

Technical Skills

Technologies: Java, Python, HTML5, CSS3, SQL, JavaScript, NodeJS, ExpressJS, Git
Applications: Google Sheets, Visual Studio Code, MySQL
