Technical Skills

Hardware: Computers, Desktops, Laptops, Tablets
Software: Discord, Windows, Google Suite
Languages: HTML, CSS, JavaScript, NodeJS, React, Linux, Express JS, Git, SQL
Certificates: Full Stack Web Development

Professional Experience

2U, Inc., Seattle, WA   Apr 2022 – Present
Instructional Specialist
- Work alongside and assist instructional staff in teaching a JavaScript-based development stack to cohorts of 40+ students focusing on MERN.
- Support students' mastery of learning objectives in an effective and engaging manner during class hours.
- Reinforced lessons and concepts by hosting weekly office hours, resulting in a 20% increase of student retention

Projects

Fluffr: Find Your Furever Friend
- This app will assist users in finding their perfect rescue pet, in a similar style to the popular dating app Tinder
- Role: DB Admin, Front-End, Back-End Integration
- Tech Used: Apollo Server, GraphQL, MongoDB, Mongoose, React, Heroku, Git
- URL: https://fluffr.herokuapp.com/

Joint Effort
- Developed an application that assists users in choosing a cannabis dispensary and a food truck near one another so that they can pick up both in a fast and efficient manner.
- Role: Backend Engineer and Front End Integration and Support
- Tech Used: ExpressJS, jQuery, Sequelize, Heroku, Yelp API, Google Maps API
- URL: https://joint-effort-kohmm.herokuapp.com

Discord Event Builder and Others
- Developed a web application to streamline event creation within the Discord platform. Integrated user-friendly features that utilized native functions that the target user base cannot easily utilize, which has led to a 300% increase in users hosting Discord events in a community server.
- Role: Back-end and front-end developer
- Tech Used: HTML, CSS, JavaScript, Bootstrap, jQuery, DaysJS, TippyJS, PopperJS
- URL: https://cosdaman.github.io/DiscordEventBuilder/
